

## 4.2 Library as learning resource

### 4.2.1 Library is automated using integrated library management system (ILMS)

Libraries are the core soul of our education system. They play a vital role in the learning and teaching process. It plays a substantial role in the overall development of the students. The basic purpose of the college library is to provide "right information to the right user at right time".

In the college, library is placed in a very calm place in ground floor with 30"× 30" total area. It has a total seating capacity of 60 students and books available are 8484.

To improve the quality of the library services even more SOUL 2.0 software is going to be installed in the library for entering the data of the library. With this software students can easily access the books and required information.

The college management is making an effort at its best to provide every possible resource to the library to meet the requirements of the students as it play vital role in their education and over all development.

We put every probable effort to make the students habitual with the library resources and services.

The college library has an advisory committee comprise of the following members- Principal, lecturers and students.

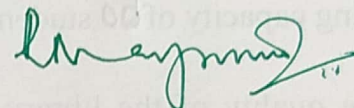

#### **The following are the initiatives to be taken-**

- Subscription to INFLIBNET-N-LIST
- Providing individual N-LIST account for all the teaching staff and the students.
- Subscription to various journals and magazines.
- Acquiring necessary infra structure and required new books.
- Disposing of old news papers and damaged books.
- Automation of library with SOUL 2.0 software.

#### **Services Offered:**

- Displaying new arrivals of books.
- Reference service

- User orientation
- Information display and notification service
- Newspaper clipping service
- Providing old question papers.
- NLIST
- BOOK BANK Facility to SC and ST students
